Welcome to the Ashford world
of spinning, weaving and textile crafts
In 1934 Walter Ashford founded Ashford Handicrafts Ltd, a company that has become a world leader in the manufacture of quality spinning wheels, weaving looms and textile equipment.

Today we, together with our loyal team, have produced over 850,000 wheels and looms.

We use only the finest native New Zealand Silver Beech hardwood, sourced from sustainably-managed forests with Forest Stewardship Council approval.

Our wheels, looms and carders are the result of more than 85 years’ experience, customer feedback, research and development. Available in natural wood or finished with eco-friendly water-based lacquer. They are designed to be simple, easy to assemble and finish, and fun to use.

At our woollen mill in Milton, New Zealand, we source and process high quality fleeces and fibres.

Experience the joy and pleasure of creating your own unique yarns, fabric, garments and homeware using our wheels, carders, looms, fibres and yarns. Relax knowing your crafts are sustainable, renewable and environmentally-friendly.

We strive to make our products accessible to all people. It gives us great pleasure to see them used throughout the world and through a common love of textile crafts that people experience a sense of community and inclusiveness.

Recently our son James and son-in-law David Lester joined our business. As I learned the trade from my father, James and David are now learning from Elizabeth and me. Together we will continue our tradition of providing high quality, affordable products and ongoing excellent service and support.

We invite you to join us and experience the wonderful world of the textile crafts.

Ashford wool sliver is 100% pure New Zealand wool. Our wool is grown on sheep farms in the South Island of New Zealand where the sheep graze on large grassy paddocks and are free from mulesing. We only use wool with good length that is free from breaks, has high bulk, brightness, low vegetable matter and is the correct micron. The wool is washed using a standard aqueous treatment with eco-friendly biodegradable detergent. Then in our very own woollen mill in Milton, our staff ensure every process is to the highest standard. We start by dyeing the wool using ecologically-safe Oeko-Tex compliant dyes, then steam dry, card, gill, comb and finally wind into bumps. The sliver is then ready to use with no waste or preparation.

Choose from over 100 beautiful colours and delicious blends. Fibre sample packs are available from our website www.ashford.co.nz

Choose from our range of wool sliver — available in Corriedale and Merino.

Merino – 22 Micron. Very fine wool for fine spinning, knitting, felting, crochet and lace work.
