

YOGA YARN

Yoga yarn is 35% lighter in weight than the 100% cotton in an equivalent weight.

So, knit and weave your fabrics, jackets, pull-overs, scarves, shawls and homewares which will have the bulk and density you want but at the same time staying light!

Our Yoga yarn has a nylon filament core completely covered by a cotton outer wrap! Get the best of both worlds: strength and elasticity of nylons and natural comfort and beauty of cotton!

It is a 2 ply (two threads plied together) yarn - each ply is cotton spun over the nylon filament - the nylon filament is not visible and it will dye like 100% cotton.

It is such a pleasure to weave with this yarn. Due to the slight elasticity of the yarn there will be no more "saggy shed" when weaving on a rigid heddle loom!

This is Ne 8/2, but looks and weaves like Ne 5/2. You can use it in warp and weft and in any combination with other yarns.

Composition: 82% Cotton, 18% Nylon core

Cone weight: 200gm

Length: 1260m/1386yds approx.

Yarn count: Ne 8/2

Wraps per inch: 28

Weaving sett: 15- 20 epi

Knitting Needle size: 2-3mm

Wash care:
