WET FELTING

FLAT FELTING

It's simple and easy to make a piece of flat felt. To learn how just follow these steps. Make 6 pieces of flat felt to use as placemats for your dining table.

Wet felting relies on the unique properties of wool and its ability to mat together and shrink under friction, moisture and heat.

You will need:

Carded wool sliver

Dishwashing liquid - 1/4 teaspoon

Hot water - 600ml 40°C

Drink bottle

Towel

Bubble wrap

01

Place the towel on a flat surface, then place bubble wrap on top with bubbles down.

02

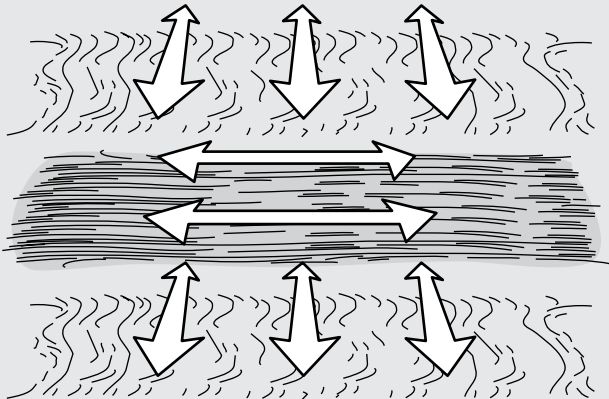

Diagram showing steps 3, 4 and 5, layering the sliver.

03

Start laying out the sliver into a batt (a rectangle of fibre). Lay the first layer down by holding one end of the fibres down firmly and pulling the other end to make a thin, even layer.

04

Then place the second layer down at right angles to the first layer.

05

Lay down the third layer in the same direction as the first layer. In a bottle, add $\frac{1}{4}$ t dishwashing liquid & hot water. Apply a little water over the complete batt.

06

Press all over to get the sliver wet. Add more water as necessary to ensure all the wool is damp.

07

Roll up the batt in the wrap.

08

Then roll up the batt and wrap in the towel.

09

Start rolling back and forwards for 50 rolls

10

Unroll and turn work around 90 degrees, and roll again for another 50 rolls (Pre-felt)
Repeat these 2 steps until you have done 200 rolls per step

11

If you want to have nice straight edges, cut with the scissors at the pre-felt stage.

12

Unroll and check to see if the fibre has felted. Pinch the fibre and it should stay together. If not, continue rolling.

13

Take the felt and squeeze and roll in your hands to shrink more.

14

When the felt has dimples over the surface, it is finished. Roll in the towel and squeeze out the excess water.

15

Lay flat and dry in a warm location or outside in the shade.

Now make more to use as placemats for your dining table. Cut or trim to suit your dining table.

Corriedale 100gm Packs

Convenient seven colour packs of our popular 30 micron Corriedale sliver pre-packaged in 100gm bags. Available in 10 colour collections.

Perfect for all fibre crafts – needle felting, wet felting, spinning, blending or carding.

Fibre preparation made easy!

Ashford Drum Carders

Prepare your fibres effortlessly for felting and spinning. Have fun creating and mixing your own blends and colours.

Wild Carder

Standard Drum Carder

Silk Merino Scarf Kits

Create a beautifully soft silk/merino scarf in nuno-felt. Kit includes fibre, silk chiffon and step-by-step colour instructions.

Available in 19 random colourways and white.

Needle Felting Starter Kit

Needle felting is a quick and easy way to felt fibre without soap or water.

Kit includes: book, needles, fibre, foam and water soluble fabric.

To view the full range of felting kits, carders, fibres and textile equipment visit www.ashford.co.nz

Ashford Wool Sliver

Choose from our range of wool sliver — available in Corriedale and Merino.
Available in 100gm (3½oz) pack and 1kg (2.2lb) bump.
