Ashford Fibres

Ashford wool sliver is 100% pure New Zealand wool. The sheep farmers graze their flocks on clean, grassy pastures to ensure their wool is free of dust, dirt and thistles. New Zealand has a temperate climate with moderately high rainfall that helps keep the wool clean. The sheep are generally shorn in early spring to encourage the ewes to take care of their newborn lambs. In the shearing shed the farmers select premium fleeces for Ashford wool sliver that are sound, clean and true to type. The wool is then washed and carded, ready to use. The wool is only from sheep that have not been mulesed and is 100% processed in New Zealand. The dyes comply with Oeko-Tex Standard 100.

wool sliver

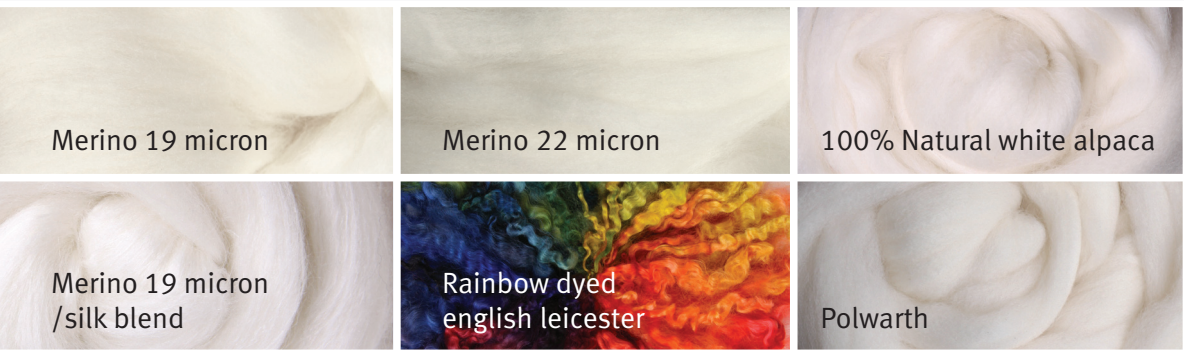

Choose from our range of wool sliver - available in Corriedale and Merino.

Corriedale - 30 Micron. Soft wool for fine-medium spinning. Ideal for baby wear, woven, knitted, crocheted, felted garments and homeware.

Merino - 22 Micron. Very fine wool for fine spinning, knitting, felting, crochet and lace work.
* Available in Corriedale only
